

Article Overview

Brunei's optical module market includes both local distributors and regional suppliers offering fiber optic transceivers, SFP modules, and related components.

Key Manufacturers and Suppliers

- o SKY PFM Limited - Specializes in manufacturing and exporting communication equipment, including fiber optic modules such as SFP, GBIC, CWDM, and bi-directional transceivers. They offer high-sensitivity, low-noise modules with over-voltage protection and electromagnetic shielding, suitable for Fast Ethernet, SDH/SONET, and ATM applications (source: TradeKey) .
- o Oplinkbay Group - A professional manufacturer of optical transceivers including RF optical transceivers, ultra-low data rate modules, single fiber transceivers, ONU for PON, and CWDM optical transceivers. They provide GBIC/SFP/XFP/SFF modules compatible with various networking standards and transmission distances (source: TradeKey) .
- o Link-PP - Offers high-performance SFP28 BiDi modules and other optical transceivers with ISO 9001, CE, RoHS, FCC, and ISO 14001 certifications. Their products are designed for reliability, low power consumption, and compliance with international safety and environmental standards (source: Link-PP) .
- o Local Distributors in Brunei - Companies such as Dura Sdn Bhd provide optical components and modules to end-users, contractors, and system integrators. They evaluate products from multiple manufacturers to offer cost-effective solutions for networking and telecommunication needs (source: ListCompany) .

Market Overview

The Brunei optical fiber components market is growing, driven by applications in FTTH, data centers, distributed sensing, medical equipment, and telecommunications. Key end-users include telecommunication providers, military, oil and gas, banking, and healthcare sectors. The market features a mix of imported modules from regional manufacturers and local distributors providing support and customization (source: 6Wresearch) .

Considerations for Procurement

- o Product Types: SFP, SFP+, GBIC, CWDM, bi-directional transceivers, and ONU modules.
- o Certifications: ISO 9001, CE, RoHS, FCC, ISO 14001, and sometimes FDA for medical applications.
- o Transmission Range: Modules vary from short-range (100m) to long-range (up to 40km or more) depending on single-mode or multi-mode fiber.
- o Customization: Many suppliers offer tailored solutions for specific network requirements, including power supply, interface type, and environmental tolerance. For businesses seeking optical modules in Brunei, contacting local distributors like Dura Sdn Bhd or regional manufacturers such as SKY PFM Limited and
