

Denmark Warranty for Polarized Fiber Optic Multimode

Article Overview

In Denmark, all fiber optic multimode cables, including polarized types, are covered by a mandatory 2-year legal warranty, with additional manufacturer guarantees possible.

Legal Warranty

Under Danish law, any product purchased from a company in Denmark comes with a 2-year legal warranty. This means you have the right to file a complaint with the seller if the cable has a fault or does not conform to the expected quality at the time of delivery. The warranty applies whether the product is purchased online, in-store, or via mail order, and it covers both new and second-hand products. You must make the complaint within two years from the date of purchase, and the seller is responsible for addressing faults that existed when the product was delivered .

Manufacturer or Seller Guarantees

In addition to the statutory warranty, companies may offer optional guarantees that can extend coverage or include additional services. The terms, duration, and scope of these guarantees are determined by the company itself. If a fault occurs under such a guarantee, you should contact the company providing it. The company must prove if a fault is not covered, while you only need to demonstrate that the product is defective .

Suppliers in Denmark

Several Danish suppliers provide polarized fiber optic multimode cables:

- o BBT Fiberoptic ApS offers a wide range of fiber optic components and technical support for custom solutions .
- o Farnell Denmark supplies multimode fiber optic cables suitable for high-speed data transmission, with various connector types and robust designs for demanding environments .
- o Fiberkabel.dk provides pre-terminated multimode fiber cables, patch cables, and network solutions, with lengths up to 400 meters and multiple connector options . When purchasing, ensure you retain the original receipt and any guarantee certificates to make use of either the legal warranty or additional guarantees.

Practical Advice

- o Check if the cable is covered by a manufacturer guarantee in addition to the 2-year legal warranty.
- o Keep all purchase documentation.
- o Contact the seller first for any defects within the warranty period.

Denmark Warranty for Polarized Fiber Optic Multimode

o For unresolved disputes, Denmark has a public consumer complaints system through the Centre for Complaint Resolution and the Consumer Complaints Board . This ensures that your investment in polarized fiber optic multimode cables is protected under Danish consumer law and any additional guarantees offered by suppliers.
