

# Detailed Price List for Electrical Distribution Boxes at Malta Construction Sites

## Article Overview

Electrical distribution boxes in Malta for construction sites typically range from EUR20 to over EUR200 depending on size, IP rating, and module capacity.

## Price Ranges and Examples

- o Small, single-module boxes (IP55): Suitable for minor outdoor installations, these boxes are priced around EUR20-EUR40. For example, the Master 1 Module Distribution Box IP55 from BigMat Malta is designed for one DIN rail module and is weatherproof, with delivery options across Malta and Gozo .
- o Medium boxes (IP65, multiple modules): Boxes accommodating 4-24 modules, often used for larger construction sites, range from EUR50 to EUR150. The Marlanvil Surface Distribution Box, IP65 rated, is suitable for outdoor use and protects multiple modules . FBP Malta offers a 24-way IP65 distribution box, which is ideal for more extensive electrical setups .
- o Large or specialized boxes: For high-capacity or heavy-duty construction site requirements, prices can exceed EUR200, depending on features like waterproofing, dustproofing, and additional accessories such as cable glands or terminal blocks .

## Key Considerations

- o IP Rating: IP55 and IP65 are common for outdoor construction use. IP65 provides better protection against dust and water jets.
- o Module Capacity: Choose based on the number of circuits or equipment to be connected. Single-module boxes are compact, while 24-way boxes handle larger electrical loads.
- o Delivery and Installation: Some suppliers, like BigMat Malta, offer free delivery for orders over EUR50, with additional charges for smaller orders or Gozo deliveries. Installation services may incur extra fees .
- o Material and Durability: Construction site boxes are typically made from durable plastics or metals to withstand harsh outdoor conditions.

## Suppliers in Malta

- o BigMat Malta: Offers a range of IP55 and IP65 distribution boxes, with delivery and optional installation .
- o FBP Malta: Provides larger capacity boxes, including 24-way IP65 models suitable for construction sites .
- o XOL Malta: Stocks various distribution boxes, though specific pricing may require direct inquiry . For accurate pricing and availability, it is recommended to contact suppliers directly or check their online catalogs, as prices may vary based on size, features, and current stock.
