

Article Overview

You can request a quotation from distribution box factories by contacting manufacturers directly, specifying your requirements, and exploring customization options for pricing and delivery.

How to Obtain a Quotation

o **Identify Reliable Manufacturers** Leading distribution box manufacturers in China include Yuanky, Zhejiang Chbest Power Technology, Selhot Electric, and OOHMAGE. These companies offer factory-direct sales and can provide competitive pricing for bulk orders or custom designs .

o **Specify Your Requirements** When requesting a quote, provide details such as:

o Type of distribution box (plastic, metal, waterproof, IP65/IP66 rated)

o Dimensions and material (PC, ABS, flame-retardant, UV-resistant)

o Number of circuits or MCB slots

o Customization needs (color, knockouts, wiring layout, mold design)

o Application environment (residential, commercial, industrial, outdoor, marine, solar)

o **Request Factory-Direct Pricing** Many manufacturers offer OEM/ODM services, allowing you to get a quotation based on your specifications. Factory-direct quotes often include unit price, shipping costs, and lead time .

o **Use Online Platforms** Platforms like Made-in-China and company websites provide direct contact forms to request quotations. You can also compare multiple suppliers to ensure competitive pricing and quality .

o **Quotation Software (Optional)** For managing multiple quotes or complex orders, software like OrderlineBOX can help streamline the quotation process, though it is primarily for packaging boxes, it demonstrates the efficiency of centralized quotation management .

Tips for Accurate Quotation

o Provide technical drawings or specifications if available.

o Clarify quantity and delivery schedule to get precise pricing.

o Ask about certifications (CE, TUV) and warranty for quality assurance.

o Consider customization costs for special materials, UV protection, or waterproofing. By following these steps, you can obtain a detailed and accurate quotation from a distribution box factory, ensuring the product meets your technical and budgetary requirements.
