

Article Overview

You can find electrical distribution boxes in Estonia through specialized suppliers like Konner & Sohnen, KOLOSS ELECTRIC OU, and B2B platforms such as ElecZap.

Online Retailers

o Konner & Sohnen offers certified distribution boards suitable for residential and commercial projects. You can order directly from their official website, ensuring reliable and safe power distribution for various applications (konner-sohnen.ee) .

Industrial and Commercial Suppliers

o KOLOSS ELECTRIC OU provides a wide range of low-voltage distribution boards for residential, office, and industrial use. Their products include three-phase and single-phase boards, equipped with meters and circuit protection devices. These boards are suitable for transformer substations, input devices, and rapid circuit switching in buildings and industrial plants (koloss.ee) .

o ElecZap is a B2B platform that connects businesses with suppliers of electrical materials, including distribution boxes. It streamlines procurement and offers ERP integration for industrial buyers, making it easier to source and purchase electrical distribution equipment (ensun.io) .

Specialized Applications

o ElectroAir provides distribution pillars for aviation and ground power systems, suitable for airports and workshops, including advanced features like remote control and energy meters (ensun.io) .

o Elenger and Eleport focus on energy distribution and EV charging infrastructure, which may include specialized distribution solutions for municipal or commercial projects (ensun.io) .

Summary

For general residential or office use, Konner & Sohnen and KOLOSS ELECTRIC OU are reliable options. For industrial, municipal, or specialized applications, platforms like ElecZap or companies like ElectroAir and Elenger provide tailored solutions. Always check product specifications to ensure compatibility with your electrical system and local regulations.
