

Article Overview

Fiji has several established manufacturers producing high-quality electrical distribution boxes for commercial, industrial, and specialized applications.

Key Manufacturers and Capabilities

Electomech PTE Limited, founded in 2000 in Ba, Fiji, operates an 8,000-square-meter facility with over 140 skilled professionals. While initially focused on distribution, Electomech expanded into manufacturing in 2013, including sheet metal works and injection molding, and by 2015 commissioned a plant capable of producing electrical components, including distribution boxes, for industrial and infrastructure projects across Fiji and the Pacific . Roofing and Profiles (Fiji) PTE Ltd. specializes in manufacturing and assembling purpose-built switchboards and meter boxes for commercial and industrial applications. Their products are designed to meet the needs of electrical contractors, design consultants, and end users, ensuring compliance with local standards . Flash Electrical PTE LTD, based in Nadi, provides electrical services and solutions, including installation and maintenance of distribution systems. While primarily a service provider, they have experience in handling electrical distribution projects for both residential and commercial clients .

Specialized Products

Fiji also hosts suppliers of explosion-proof distribution boxes, which are available for bulk purchase through verified B2B platforms. These products cater to industries requiring high safety standards, such as mining, manufacturing, and chemical processing .

Procurement and B2B Platforms

For businesses looking to source electrical distribution boxes in Fiji, platforms like ExportHub list local manufacturers and suppliers, enabling connections for bulk orders, custom specifications, and export-ready products .

Summary

Fiji's electrical distribution box production is supported by a combination of local manufacturing expertise, specialized product offerings, and service-oriented companies. Whether for standard commercial use, industrial applications, or high-safety environments, businesses can access a range of products and services from established Fijian manufacturers and suppliers, ensuring quality, compliance, and reliable support.
