

How much does an automatic distribution box cost in Suriname

Article Overview

Automatic distribution boxes in Suriname typically range from USD 50 for small residential units to several thousand dollars for industrial-grade or smart panels.

Price Range

For basic residential automatic distribution boxes, small plastic or surface-mounted units can cost around USD 50-200, depending on the number of circuits and included components . These units are suitable for single-phase household applications and often come with standard circuit breakers. For commercial or industrial applications, prices increase significantly. Metal enclosures with higher amperage capacity, multiple circuits, and advanced safety features can range from USD 500 to over USD 2,000, especially if they include smart monitoring, surge protection, or remote control capabilities . Installation costs in Suriname may add USD 1,300-1,800 for professional setup in residential upgrades, with industrial installations potentially costing more due to labor and permit requirements .

Local Suppliers and Options

- o Brilltech Engineers Pvt. Ltd. supplies a variety of power distribution panels in Suriname, including LT distribution panels, load management panels, and outdoor power panels. They offer custom specifications and premium quality units suitable for both residential and industrial needs .
- o Desertcart Suriname offers small surface-mounted distribution boxes with delivery included, providing a convenient option for residential users .

Factors Affecting Cost

- o Material: Plastic enclosures are cheaper, while powder-coated steel or stainless steel units are more expensive.
- o Capacity: Higher amperage and more circuits increase the price.
- o Features: Smart monitoring, surge protection, and weather-resistant designs add to the cost.
- o Installation: Labor, permits, and retrofitting older buildings can significantly affect total expenses.
- o Customization: Custom panels for industrial or commercial use are priced higher due to design and compliance requirements .

Summary

For a typical residential automatic distribution box in Suriname, expect to pay USD 50-200 for the unit itself, with installation potentially adding over USD 1,000. For industrial or smart panels, costs can exceed USD 2,000, depending on specifications and features. Contacting local suppliers like Brilltech or checking online
