

Article Overview

Leading manufacturers of plastic lighting distribution boxes include Selhot Electric, Wuxi Fenigal, JUNON, and Wieland, offering modular, waterproof, and customizable solutions for residential, commercial, and industrial applications.

Key Manufacturers and Offerings

Selhot Electric produces IP65/IP67 waterproof distribution boxes made from UV-resistant PC/ABS materials. Their products are CE/TUV certified and allow custom knockouts for cable entry, suitable for both indoor and outdoor installations. Wuxi Fenigal Science and Technology Co., Ltd. specializes in plastic distribution boxes for 12-36 modules, including surface and flush-mounted types. Their products are designed for commercial and high-end residential buildings. They offer OEM/private label services, low or no minimum order quantities, and fast lead times of 1-7 days depending on order size. JUNON Electrical provides C6 series single-phase distribution boards and 220V power distribution boxes. These are available in surface or flush mounting, with protective features like neutral and earth copper bars, and are suitable for industrial, mining, and domestic applications. Wieland Electric offers smart distribution boxes for decentralized electrical installations, including power, signal, and automation applications. Their enclosures are designed for flexible building systems, supporting pluggable installation and compliance with IEC standards, making them ideal for modern smart buildings.

Features to Consider

- o Material: High-strength ABS or PC/ABS for impact resistance and UV protection.
- o Protection Level: IP65/IP67 for waterproofing and dust resistance.
- o Mounting Options: Surface-mounted or flush-mounted depending on installation needs.
- o Modularity: Supports multiple modules (12-36) and DIN rail compatibility.
- o Customization: Knockouts, private labeling, and OEM options.
- o Certifications: CE, TUV, and IEC compliance for safety and quality assurance.

Applications

Plastic lighting distribution boxes are widely used in:

- o Residential and commercial buildings for lighting and power distribution.
- o Industrial and mining sites for electrical protection and control.
- o Smart building automation systems requiring decentralized installation.
- o Event management, film, and media setups where modular and portable solutions are needed. By selecting a

Plastic Lighting Distribution Box Manufacturer
