

Portuguese Waterproof Distribution Box Configuration Table

Article Overview

IP65-rated waterproof distribution boxes are available in HA and HT series with varying pole counts and dimensions suitable for industrial and outdoor applications.

HA Series (Surface-Mounted Waterproof Distribution Box)

The HA series offers compact and larger enclosures for multiple poles, ideal for straightforward cabling and outdoor installations. The configuration table is as follows:

Model	Poles	(P)	Width	(mm)	Height	(mm)	Depth	(mm)
HA-4P	4	143	210	100	HA-8P	8	215	210
HA-12P	12	298	260	140	HA-18P	18	410	285
HA-24P	24	298	420	140	HA-36P	36	298	570

These boxes are designed for IP65 protection, ensuring resistance to dust, rain, and UV exposure, making them suitable for outdoor and industrial environments .

HT Series (Surface-Mounted Waterproof Distribution Box)

The HT series provides more internal space and cleaner routing, suitable for installations requiring extra terminals or small DIN rail configurations. The configuration table is:

Model	Poles	(P)	Width	(mm)	Height	(mm)	Depth	(mm)
HT-2P	2	120	55	95	HT-5P	5	159	119
HT-8P	8	155	201	90	HT-12P	12	198	255
HT-15P	15	198	309	108	HT-18P	18	198	363
HT-24P	24	242	733	541	HT-36P	36	242	733

The HT series is ideal for DIN rail-mounted modules and provides flexibility for complex wiring setups while maintaining IP65 waterproofing .

Key Features

- o Ingress Protection: IP65, suitable for outdoor and industrial use .
- o Material: ABS or polycarbonate for lightweight strength and UV resistance .
- o Applications: Lighting, pumps, solar systems, and general electrical distribution .
- o Customization: Options for single, double, or triple layers, and bulk orders are available for tailored installations . These tables provide a clear reference for selecting the appropriate Portuguese waterproof distribution box based on pole count, dimensions, and series type.
