

Article Overview

The cost of a cable tray bend in Nepal typically ranges from NPR 500 to NPR 2,500 per piece, depending on material, size, and type.

Factors Affecting Price

The price of a cable tray bend in Nepal depends on several factors:

- o **Material:** Common materials include GI (galvanized iron), stainless steel (SS-202/304/316), and powder-coated steel. Stainless steel bends are more expensive than GI or powder-coated options .
- o **Size and Thickness:** Standard cable tray bends are designed to match tray widths (40mm to 1000mm) and thicknesses (1.2mm to 3mm). Larger or thicker bends cost more .
- o **Type of Bend:** Horizontal bends, vertical bends, and tee or cross bends may have different prices due to manufacturing complexity .
- o **Finish:** Hot-dip galvanized or powder-coated finishes increase durability and cost .

Estimated Price Range

- o Small bends (for 40-100mm trays, GI or powder-coated): NPR 500-1,000 per piece .
- o Medium bends (150-300mm trays, GI or powder-coated): NPR 1,000-1,500 per piece .
- o Large bends (450-1000mm trays, stainless steel or heavy-duty GI): NPR 1,500-2,500 per piece .

Where to Buy

- o **Hutaib Electricals:** Offers a wide range of cable trays and bends in Nepal with various materials and finishes .
- o **Daraz Nepal:** Online marketplace for smaller cable tray components and bends suitable for home or office wiring .
- o **Local suppliers:** Jeetmull Jaichandlall and other top manufacturers provide bulk orders and custom sizes .

Tips for Procurement

- o Confirm the exact tray width and bend angle before ordering.
- o Compare material and finish options to balance cost and durability.
- o For large projects, request bulk pricing from suppliers to reduce per-piece cost. By considering these factors, you can select the appropriate cable tray bend for your installation while staying within budget.
