

Price of stainless steel cable trays in Mianning

Article Overview

Stainless steel cable trays typically cost between \$10 and \$25 per meter, with prices varying based on grade, type, and installation requirements.

Price Range and Factors

The cost of stainless steel cable trays depends on several factors:

- o Material Grade: Common grades are 304 and 316 stainless steel, with 316 being more corrosion-resistant and slightly more expensive .
- o Tray Type: Ladder-type trays are generally more expensive than perforated or solid-bottom trays due to higher load capacity .
- o Dimensions: Widths range from 50mm to 900mm, and depth variations affect the price .
- o Surface Finish: Polished or coated finishes increase durability and cost .
- o Installation Accessories: Brackets, supports, bends, and covers can add 20-30% to the total cost .

Regional Pricing Examples

- o In India, prices start around INR75-INR105 per meter for basic stainless steel trays .
- o Globally, the average per-meter cost ranges from \$10 to \$25, with bulk orders potentially reducing the price .

Additional Considerations

- o Bulk Orders: Large projects often benefit from lower per-unit costs.
 - o Customization: Custom sizes or specialized finishes can increase the price.
 - o Environmental Factors: Trays used in corrosive or outdoor environments may require higher-grade stainless steel or protective covers, increasing costs .
- In summary, while a single straight stainless steel cable tray may appear inexpensive, the total project cost includes supports, brackets, bends, and covers, which can significantly increase the overall budget. For precise pricing, contacting suppliers directly is recommended to account for local availability and project-specific requirements .
