

Price quote for explosion-proof cast aluminum distribution boxes in Venezuela

Article Overview

Explosion-proof cast aluminum distribution boxes typically range from a few hundred to over a thousand USD depending on size, certification, and features, with international suppliers offering shipping to Venezuela.

Overview

Explosion-proof aluminum distribution boxes are designed to safely manage and distribute electricity in hazardous environments, preventing sparks or internal explosions from igniting surrounding flammable gases or dust . They are commonly used in oil and gas, chemical, offshore, and industrial facilities. These enclosures are made from copper-free aluminum or die-cast aluminum alloys, providing high corrosion resistance, impact strength, and thermal conductivity .

Key Features

- o Material: Cast aluminum or die-cast aluminum alloys (e.g., ADC12 or A380) for durability and corrosion resistance .
- o Certifications: ATEX, IECEx, UL, and NEC Class I/II compliance for hazardous areas .
- o Protection: Flame-path design, thick walls, secure fastening, and high IP ratings to prevent ingress of dust and water .
- o Applications: Low-voltage power distribution (

Supermec ATEX-approved Junction Box & Explosion Proof, Flameproof Enclosures are designed to satisfy your requirements.
