

Price quote for fiberglass cable trays near Venezuela

Article Overview

Fiberglass cable trays in Venezuela typically range from \$10 to \$25 per meter, depending on type, size, and supplier.

Overview

Fiberglass cable trays, also known as FRP (Fiber Reinforced Plastic) trays, are widely used in industrial and commercial applications due to their durability, corrosion resistance, and lightweight properties . In Venezuela, suppliers offer a variety of types, including ladder-type, perforated, and pultruded trays, with prices influenced by material quality, tray dimensions, and customization options .

Price Range

- o Standard fiberglass ladder trays: Approximately \$10-\$20 per meter, depending on width and load capacity .
- o Pultruded or heavy-duty trays: Can reach \$20-\$25 per meter, especially for high-strength or corrosion-resistant applications .
- o Bulk orders: Purchasing in larger quantities may reduce the per-meter cost by 10-30%, depending on supplier and shipping arrangements .

Factors Affecting Cost

- o Material Type: Higher-quality FRP with UV protection or enhanced chemical resistance increases price.
- o Tray Dimensions: Wider or taller trays require more material, raising costs.
- o Customization: Special shapes, colors, or perforation patterns can add to the price.
- o Supplier and Location: Local Venezuelan manufacturers may offer competitive pricing, while imported trays may include shipping and import duties .
- o Installation and Accessories: Supports, brackets, and installation labor can add to the total project cost .

Local Suppliers

- o Mercado Libre Venezuela lists various fiberglass ladder-type trays with competitive pricing and shipping options .
- o Local manufacturers like Jeetmull Jaichandlall (P) Ltd. provide custom trays in multiple sizes and configurations, ensuring compliance with industry standards .
- o International suppliers such as Alibaba offer bulk FRP trays that can be shipped to Venezuela, often at lower per-unit costs for large orders . For precise pricing, it is recommended to request quotes from multiple suppliers, specifying tray type, dimensions, and quantity to get the most accurate and current cost for your project.
