

Article Overview

Leading UK distributors of power distribution boxes include Rubber Box, Distribution Zone, Olson Direct, and Stuart Group Ltd, offering a range of portable, industrial, and event-ready units.

Key UK Suppliers

1. Rubber Box Rubber Box manufactures and supplies power distribution boxes for events, film, television, and entertainment industries worldwide. Their products are designed for robust, portable use and are suitable for temporary installations and high-demand environments (Rubber Box) . 2. Distribution Zone Based in the UK, Distribution Zone offers Powersafe Sequential Boxes in 19-inch rack formats, rated up to 800A. Their boxes are available in source and drain variants, IP44 or IP67 rated, CE & UKCA marked, and come with a 12-month warranty. They are widely used in temporary electrical installations, stage setups, and entertainment applications (Distribution Zone) . 3. Olson Direct Olson Direct, located in Stanmore, London, is a UK manufacturer of Power Distribution Units (PDUs). They design and manufacture all products on-site, ensuring high-quality components and rigorous testing. Their units are suitable for industrial, commercial, and specialized applications (Olson Direct) . 4. Stuart Group Ltd / Stuart Power Stuart Group Ltd provides GEK distribution boxes for sale and hire, suitable for construction, industry, mining, and events. Their boxes are stackable, CE certified, and designed for durability in harsh conditions. Stuart Power also offers portable distribution boxes with MCB and RCBO circuit protection, ensuring safety for workforce and equipment (Stuart Group Ltd, Stuart Power) .

Considerations When Choosing a Distributor

- o Application: Determine whether the box is for industrial, construction, event, or entertainment use.
- o Amperage & Phases: Check the current rating (e.g., 800A three-phase) and compatibility with your power source.
- o Certifications: Ensure CE and UKCA marking for compliance with UK safety standards.
- o Portability & Durability: Consider IP ratings (IP44/IP67) and stackable designs for outdoor or temporary setups.
- o Warranty & Support: Look for distributors offering warranties and technical support for installation and maintenance. These distributors provide both sales and rental options, making it easier to select a solution that fits temporary or permanent power distribution needs in the UK.
