

What are some manufacturers of optical fiber cables in East Africa

Article Overview

Key manufacturers of optical fiber cables in East Africa include NiaFiber Africa Limited and YOA Cables, both offering a range of high-quality fiber optic solutions.

NiaFiber Africa Limited

NiaFiber is a prominent fiber optic cable manufacturer in East Africa, specializing in a variety of products designed for both indoor and outdoor installations. Their offerings include:

- o ADSS cables: Non-metallic, aerial fiber optic cables suitable for installation along power lines, resistant to environmental factors.
- o Duct fiber cables: Rugged cables for underground or overhead ducts, moisture-resistant for long-distance transmission.
- o Air-blown micro cables: Lightweight cables for fast deployment through microducts using compressed air.
- o FTTH indoor and outdoor cables: Compact, flexible cables for connecting homes and offices, with flame-retardant or weatherproof sheaths.
- o Glass yarn armoured cables: Reinforced for protection against stress and rodent damage, ensuring durability in harsh conditions .

YOA Cables

YOA Cables is recognized as Africa's largest optical fiber cable manufacturer, focusing on innovation and high-performance products for the African market. Key features include:

- o Advanced manufacturing processes such as Fast Fusion Technology (FFT) for easier installation and reduced damage risk.
- o A wide range of optical fiber products suitable for telecom networks, data centers, and enterprise applications.
- o Emphasis on flexible applications and high-speed connectivity, catering to both indoor and outdoor deployments .

Market Overview

The Middle East & Africa optical fiber market is growing rapidly, driven by increasing internet usage, 5G rollouts, and data center construction. South Africa, Kenya, and other East African countries are seeing rising demand for fiber optic infrastructure. Both local manufacturers like NiaFiber and YOA Cables, as well as international suppliers such as Corning and Prysmian, are active in the region, providing a mix of single-mode

and multi-mode fibers, glass and plastic compositions, and solutions for telecom, industrial, and networking applications .

Summary

For East Africa, NiaFiber Africa Limited and YOA Cables are the primary local manufacturers of optical fiber cables, offering a comprehensive range of products for aerial, duct, indoor, and outdoor installations. These companies are complemented by international suppliers who support large-scale infrastructure projects, ensuring the region has access to high-quality fiber optic solutions for expanding connectivity.
