

Which company makes the best ordinary cable trays

Article Overview

Top manufacturers of ordinary cable trays include Atkore International, Legrand, Niedax Group, OBO Bettermann, and Snake Tray, recognized for quality, compliance, and global availability.

Leading Manufacturers

Atkore International is a prominent manufacturer of cable trays and cable management systems, offering a wide range of galvanized, stainless steel, and fiberglass trays suitable for industrial and commercial applications, with extended warranties and global distribution options . Legrand is a global specialist in electrical infrastructure, providing steel and aluminum cable trays with strong market presence in over 90 countries. Their products are known for durability, compliance with international standards, and versatility across residential, commercial, and industrial projects . Niedax Group is a European leader in metal cable trays, delivering solutions that meet IEC 61537 standards. Their trays are widely used in large-scale construction, energy, and industrial projects across Europe, the Middle East, and Asia . OBO Bettermann offers a comprehensive range of metal cable trays, including perforated and fire-resistant systems, engineered for demanding industrial environments and global distribution in over 60 countries . Snake Tray specializes in aluminum and steel cable trays, providing innovative solutions for data centers, solar installations, and transit projects. Their products are designed for cost-effective installation and reliable performance .

Other Notable Manufacturers

- o Chalfant Manufacturing - Known for self-connecting and walkable tray lines, with over 70 years of experience .
- o Sunil Engineering Corporation - Offers perforated and ladder trays with customized solutions .
- o ELCON Cable Trays Pvt. Ltd. - Provides wire mesh, ladder, and perforated trays with a broad accessory range .
- o HUAPENG - A leading Chinese manufacturer serving Asia-Pacific markets with competitively priced trays .

Key Considerations

When choosing the best ordinary cable tray, consider:

- o Material: Steel, aluminum, or fiberglass depending on load and environment.
- o Compliance: Ensure adherence to standards like IEC 61537 or UL 1953.
- o Load Capacity: Select trays rated for your cable weight and quantity.
- o Installation: Modular designs and accessories can simplify setup.
- o Global Availability: For large projects, choose manufacturers with reliable distribution networks. These
